

# [ **From sixth form to first year: What changes at university?: teacher notes** ]

KANBANANZA

---

Speaker notes and timings for each slide, from the slides in kb-lesson-uni-slides.pdf. The practice briefs are invented and labelled as practice.

## 1 Title

0 to 2 min. Welcome. Big question on screen.

---

## 2 Do now: true or false

2 to 6 min. Students vote true or false on each. Answers: 1 false (often less), 2 usually true, 3 false (marked from the start in most courses), 4 true.

---

## 3 What changes

6 to 14 min. Go row by row. Ask students which change worries them most and note it for later.

---

## 4 A university brief

14 to 22 min. Students mark it with the five marks from the brief marker. Point out the marking criteria are in a separate handbook, and the style is named.

---

## 5 Deadlines cluster

22 to 27 min. Show how four modules can all fall due in two weeks. The fix is one board for every module, started in week one.

---

## 6 Referencing and AI rules

27 to 32 min. Two things that cost marks in first year. Find your style on day one. Read your university's AI policy and keep a note of any help you used.

---

## 7 Your turn: first term board

32 to 42 min. Students fill in the first term board on paper: a column per module, cards for each assignment with a date, plus reading and admin. Or build it in KanBananza with the First term template.

---

## 8 Exit ticket

Last 5 min. Students answer on the exit ticket. Collect at the door.

---
